Resume

I am a seasoned web professional with over 25 years of experience in consulting, building, maintaining and troubleshooting websites. I hope to transition into a stable part-time (or eventual full-time) position which allows me to refocus primarily on creating new websites remotely. Without also juggling all aspects of running a solo agency. Please contact me to discuss.

Experienced

- Nurturing leads into new customers, preparing contracts and onboarding.
- Determining project scope and requirements then providing itemized quotes with deliverables and timelines.
- Being a singular point of contact and handling all aspects of project management.
- **Most at home building out fancy, functional websites that are engaging and have purpose (some examples).**
- Proficient with many modern design tools and theme builder frameworks.
- Installing, configuring, backing up, updating, migrating and troubleshooting WordPress installations.
- Working with registrars, hosts and developers to resolve endless tech support issues.

History

AB Interfaces

WordPress Agency Owner

May 1998 – Current

Full / Part Time

- Founded, owned and operated a successful WordPress design agency for over 25 years.
- Collaborated with countless clients to design and develop hundreds of websites from start to finish (some examples).
